## SUMMARY

BCA (Bachelor of Computer Applications) Honours graduate (2022–2026) working across Odoo 19 development and applied AI/ML. Built real estate modules for top companies in Riyadh in collaboration with bsoln Riyadh, and integrated Odoo with ZK biometric hardware, WhatsApp/Instagram/Facebook/Snapchat lead capture, and Salla e-commerce. On the ML side, built a two-stage YOLOv8 + EfficientNet brain tumour detection pipeline. 34+ custom Odoo modules shipped to production.

## SELECTED PROJECTS

### Real Estate Modules — Riyadh

*Odoo 19 · bsoln Riyadh*

Built real estate modules (Properties, Contracts & Payments, Maintenance) for top companies in Riyadh.

### ZK Biometric Integration

*Odoo 19*

Integrated ZK biometric attendance hardware directly into Odoo's hr.attendance.

### Social & CRM Lead Integrations

*Odoo 19 CRM*

Unified lead capture from WhatsApp, Instagram, Facebook, and Snapchat ads into one CRM pipeline.

### Salla Integration

*Odoo 19*

Synced a Salla e-commerce storefront with Odoo for consistent orders and catalog data.

### KSA Payroll Export

*Odoo 19 · ksa\_payroll\_export*

Automated XLSX payroll export from Odoo's Pay Run, replacing a manual spreadsheet process.

### Saudi HR & Payroll Suite

*Odoo 19 · l10n\_sa\_payroll\_enhanced*

Fixed an Eid attendance bug via an Islamic calendar module; added Iqama alerts and ZATCA push.

### CRM & Sales Approvals

*Odoo 19 · custom\_approval\_sale*

Dual-stage sales approval workflow and field-level security on sensitive Sale Order data.

### **NeuroScan**

*Applied ML · YOLOv8 + EfficientNet*

Two-stage brain tumour detection pipeline: YOLOv8 for detection, EfficientNet for classification.

### **Clock-in Attendance App**

*Python · FastAPI*

Standalone attendance application built outside the Odoo ecosystem.

### **PCF Software**

*Python · FastAPI · In Progress*

Currently building software to calculate and track Product Carbon Footprint.
